Senior product designer and design lead with 20 years across product design, UX/UI, and brand — currently leading design for an AI-native B2B SaaS platform (multi-tenant commerce operations for retailers, distributors, and manufacturers). I work end to end — research and workflow analysis through information architecture, prototyping, and implementation — with a systems mindset: design systems, versioned patterns, and guardrails enforced in code. I care about interfaces people understand without training, and about AI that keeps humans at the decision.

WORK EXPERIENCES

Head of Product & UX/UI (AI-native SaaS Products)

SusTern Inc. - Kitchener–Waterloo, ON area | May 2025 – Present

- **Lead product and UX design** for an AI-native, multi-tenant B2B SaaS platform serving specialty retailers, distributors, and manufacturers — spanning product information and catalog, procurement, branded storefronts, 3PL logistics operations, and commercial billing.
- Joined to work on **noryX**, SusTern's first product (a Shopify AI growth app); saw the platform opportunity, **proposed and designed the first version of the AI-Commerce platform** to the founding team — now the company's core product.
- **Own the end-to-end design lifecycle** — user research and workflow analysis, journey maps, wireframes, prototyping in Figma and VS Code, visual design, and implementation review with engineering.
- **Built and govern the platform design system**: canonical components, versioned releases, and automated guardrail tests (CI-enforced) that protect design rules across the provider workspace.
- Defined the platform's **human-in-the-loop AI pattern** — AI drafts, classifies, and proposes; people decide, with provenance one step away — applied across intake, catalog, and operations.
- Drive cross-functional alignment through **written design rationale** (options, trade-offs, rejected alternatives) and **phased delivery plans with acceptance gates**, partnering with product to shape the roadmap.

UX Designer / Web Designer

Royal Distributing - Guelph, ON | Mar 2021 - Aug 2024

- Facilitated **user research activities to identify user pain points** and integrate usability testing into design strategies, improving user experience scores by 25%.
- Designed prototypes using Figma and validated them through usability testing, iterating based on user feedback to **improve conversion rates by 18%**.
- Conducted **end-to-end UX research for enterprise SaaS platforms**, including stakeholder interviews, heuristic evaluations, and competitive analysis.
- Implemented **task analysis and cognitive walkthroughs** to optimize complex user workflows in SaaS applications, enhancing usability for power users and administrators.
- **Executed Quality Assurance (QA) frameworks** to guide the creation of test cases for user interface checks, ensuring the reliability and efficiency of website features.
- Partnered with Product teams to define new features, **improving site usability and customer satisfaction**.
- Conducted **accessibility compliance testing** and implemented design adjustments based on findings.
- Facilitated cross-functional collaboration between UX, engineering, and product teams using **Lean UX and Agile methodologies**, reducing design iteration cycles by 30%.

Design Manager

Dutchie's Fresh Market - Waterloo, ON | Jun 2020 - Feb 2021

- Expanded website content and features **improving UI design and user engagement**.
- Advocated for data-driven UX improvements and redesigned key user journeys, **increasing conversions by 25%**.
- Developed scalable design systems and workflows, streamlining feedback loops and project timelines.
- Directed and executed art and UI/UX design projects resulting in an **increase in brand awareness**.

UX Designer

Hatashita International - Waterloo, ON | Jan 2020 - Apr 2020

- Managed and created content for two Shopify e-commerce stores, **boosting customer interaction**.
- Redesigned two company websites, **improving UX, online brand presence, and conversions**.
- Led art direction, content creation, UX/UI and web design initiatives, **enhancing user engagement by 20%**.
- Directed product development and project management, **increasing customer satisfaction**.

Design and Marketing Manager

TVape - Toronto, ON | Aug 2018 - Jan 2020

- Managed e-commerce platforms for 8 websites across Canada, the USA, and Europe, overseeing all project phases to **ensure timely and budget-compliant completion**.
- Led UX/UI Design projects that **boosted conversion rates by up to 25%** for both B2B and B2C initiatives.
- Executed **UX research** by developing user interview scripts and synthesizing findings to refine user journeys.
- Supervised 7 content creators while managing multiple projects concurrently to meet deadlines and **optimized department performance**.
- Advocated for a **user-centered design approach** through design sprints and stakeholder workshops, ensuring **alignment between business goals and user needs** and **improving feature prioritization**.

UX Designer / Web Multimedia Designer

TVape - Toronto, ON | May 2017 - Jul 2018

- Led the design of **fully responsive, mobile-first experiences**, ensuring seamless interactions across web, tablet, and mobile devices, i**mproving usability scores**.
- Improved customer experience through **UX design / UI design,** developing information architecture, wireframes, prototypes, mockups, user flows, and high fidelity responsive interfaces, **increasing user engagement.**
- Facilitated **usability testing** and used insights to iterate on clickable prototypes, enhancing brand presence and user experience.
- Designed and implemented **scalable interaction design frameworks**, improving UI consistency and usability across multiple digital products.

Design & Art Director

Officium Design - Brazil | Jan 2011 - Nov 2015

- **Conceived over 40 new brands and created 100+ marketing materials**, driving brand recognition.
- Improved the quality and efficiency of projects execution, leading to a **tangible reduction in production time**.
- Delivered high-quality image manipulation services and followed design trends, enhancing visual content and **increasing viewer engagement by 25 to 35%**.
- Oversaw the online publishing of digital projects and social media content, ensuring timely and accurate delivery, which **improved content reach and interaction.**

Senior Graphic Designer

Editora Fapi Ltda - Brazil | Aug 2004 - Dec 2010

- Created 25+ educational books, **enhancing visual appeal and readability**, which contributed to a 20% increase in book sales.
- **Produced over 15 packaging solutions**, ensuring high-quality and effective product presentation.
- **Created two award-winning product catalogs**, enhancing brand reputation and market reach.
- Managed digital and printed project files with precision, ensuring organization, security, and easy accessibility, which **streamlined project workflows**.

CORE SKILLS

- **UX/UI Design:** Figma, Adobe XD, Sketch, Axure, InVision. User research methods, prototyping and user testing
- **Graphic Design:** Adobe Creative Suite, Illustrator, Photoshop, InDesign, Lightroom
- **Programming languages and software:** HTML, JavaScript, CSS, SQL, Github, Visual Studio
- **Project management:** Asana, Trello, Jira. Agile and Lean methodologies, Lean UX, Scrum, Kanban, Design Sprints
- **Analytics/Testing:** CrazyEgg, ABTasty, Convert Experiences, Google Analytics, Lighthouse, Google Insights
- **Content Management Systems:** Magento, BigCommerce, Shopify, WordPress
- **Essential skills:** empathy, flexible, multi-tasker, collaborative, easygoing, responsible. Great at problem solving and critical thinking, time management, prioritization and organizational skills. Highly analytical and creative. Great attention to details and excellent communication skills.
